## Resort Accessible Features

- Accessible parking
- Accessible route to check-in area and all resort facilities
- Paved sidewalks
- Lift for disabled access to pool and main spa
- Elevators

Gleneden offers accessible parking and routes to the WorldMark check-in area and all resort facilities. A lift is available for access to the pool and main spa. All special needs units have ground floor access and most units have elevator access. The surrounding property is level to gently sloping. However, the trail to the beach is not wheelchair accessible. All special needs guest units are equipped with visual fire alarms.

## Special Needs Units

One bedroom, one bathroom

Two bedroom, two bathroom

Three bedroom, two bathroom

All special needs units feature card key lock entry, lever door handles and level thresholds. All doorways have at least 31" of clearance. Bathrooms are equipped with 17"-18" toilets, at least 25.5" of knee clearance under lavatories and standard tub/showers with hand held showers, grab bars and fold down benches. The three bedroom has a 34"x59" roll-in shower. A portable bath bench with back support is also available. Accessible bedrooms have at least 34" access on at least one bed side. The kitchens have front control stoves/ranges. All special needs units have at least 30" access to patios and decks with thresholds that range between 1.5"-3.5".

Though almost all standard units have ground floor or elevator access and 33" entries, they are generally not recommended for mobility impaired guests because interior doorways are as narrow as 24" and the bathrooms are not large enough to accommodate most wheelchairs.
