- Bedroom and bathroom doors provide 32" of clearance
- Bedroom has 40" access to one bed side
- Bed height about 25"
- Dining table has 30" knee clearance
- 52"x 53" roll-in shower
- Grab bars
- Handheld showerhead
- Roll-under lavatory has 30" knee clearance
- 16" toilets
- Side control stove top
- Counter microwave

Resort Accessible Features

- Card key locks
- Elevators
- Extremely bumpy ground access to swimming pools and some tennis courts

WorldMark La Paloma is located on level to gently sloping property and does not have handicap-designated parking. There are semi-accessible routes to the pool areas and some tennis courts; however, the routes and parking areas are paved with gravel, making the surface extremely bumpy. All WorldMark units have ground floor or elevator access but require navigation of a steep ramp. The registration office is down a flight of steps—mobility impaired guests traveling independently may need to go to the security post at the gated entrance to alert staff of their arrival. Some resort facilities lack accessible entrances. This property does not have TDD units, Braille signage or visual alarms.

Special Needs Units

Two-bedroom, two-bathroom

The special needs unit has card key lock entry, lever door handles, level thresholds and 33" entry clearance. Interior doorways for the accessible bedroom and bathroom have 32" of clearance. The special needs bathroom is equipped with grab bars, a 16" high toilet, 30" of knee clearance under the lavatory and a 52"x 53" roll-in shower with a handheld showerhead. There is a tile alcove seat in the shower as well as a portable bath bench available. The special needs bedroom has a king bed with 40" clearance to one bed side. The kitchen has a side-control stove top, a counter microwave, 35" counters and a 35" high sink without roll-under feature. Dining room tables have 30" of knee clearance and living areas have an open design. There is a 42" wide doorway with 1" threshold providing access to the deck.

Though all of the standard units have 33" entries and 29" bedroom doorways, none are recommended for mobility impaired guests because bathroom doorways are only 26" wide and bathrooms are too small to accommodate most wheelchairs.
